CALIFORNIA STATE COLLEGE AT HAYWARD

HAYWARD, CALIFORNIA JANUARY 1964

## Campus Dedication April 27--May 3

The Cal-State celebration set for April 27 through May 3 will consist of a myriad of cultural and social events designed to point up the significance to the East Bay area of California State College at Hayward.

The city of Hayward and Alameda County have contributed a total of \$20,000 for the dedication celebration.

Mr. Burdette Peterson, Cal-State director of college-community relations and secretary of the Dedication Week Committee, said plans for the celebration are being lined up but are still in the tentative stage.

Dedication ceremonies Saturday, May 2 will highlight the week's events. The ceremonies, to be held in the amphitheater, will include an academic procession and a convocation to include a major dedication address by a nationally prominent speaker yet to be announced. Following a dedication

plaque will be placed on the Fine Arts Building.

Dr. Clark Kerr, president of the University of California, has accepted an invitation as speaker for the luncheon following the ceremonies. The luncheon, scheduled to be held in the college cafeteria, will be attended by many dignitaries.

Tuesday evening a dinner will be held in the college cafeteria for the purpose of organizing a society of college supporters. A dinner at the Kaiser Center in Oakland on Friday evening will recognize citizens who have been instrumental in bringing the college to this area.

Plans are being formulated to set up a master exhibit in the foyer of the Fine Arts Building to portray Cal-State's position in the total state college system. Displays by each of the college divisions will be included in the large exhibit.

Although classes will proceed as usual during Dedication Week, there will be guided tours of campus and physical facilities for visitors.

An open house is scheduled for Saturday afternoon with Alumni meetings, laboratory demonstrations, and exhibits among the events planned.

Each of the six divisions are planning activities for the week. The Humanities Division, together with the Creative Arts Division, will present a Shakespearean sampler. Featured will be readings from Shakespeare's works and music of the Elizabethan era.

The city of Hayward plans to culminate the week's festivities on Sunday with a pageant depicting educational development in the Hayward area since 1900. Local theater groups and civic organizations will take part.

PROPOSED CAFETERIA BUILDING set for completion in January, 1966.
